—The report of the Committee on Street Railroads and Paving, which was made to the Council last week, has been printed in pamphlet form and freely distributed over the city. And it is thus that it is proposed to carry the war into Africa.

-Judge Hammond yesterday re-ceived the commission of the newly appointed Marchal for this District, Dr. T. B. Yancey, who is expected to arrive today. It is not believed that he will make many changes in the list of deputies appointed by his predeсевзота.

—"No man has a better opportunity of keeping posted about the population of the city," said Chief Cleary the other day, "and I know it is rapidly on the increase. During the past two months I have made it my business to insect all of the large huldings in to inspect all of the large buildings in the city frequently, and dozens of them which were unoccupied last year are full to overflowing now. Take a walk down Main street any day and you will be actonished to observe the number of new faces."

—S. Seeing a strange enimal approaching him, the negro cried "catamount." As the animal jumped the negro threw up his hands, catching the animal by the side of the jaw and one of the hind legs. The animal and victim fell together, and Mr Caldwell quickly shot the panther, which was five feet long. The negro was alightly cut on the face by the teeth of the animal. The courage of the colored man made a very favorable impression on the mind of his boss. There were two panthers together, but one ratreated into the woods while the other made the attack.

It was forwarded for collection in due course, and after some time came back protested, with \$3 06 fees. It was alterward ascertained that the man who drew the check was also the no-tary public of the Dakota bank on which it was drawn, and so pockteds \$3 06 fees for protesting his own \$3 check." check.

FROM THE PEOPLE.

Beform of Convicts. To the Editors of the Appeal: Since public attention has been so pointedly called by your correspondent "B" to cruelties perpetrated on convicts by pr son officials lacking in humanity, will you please publish the following short article taken from the Northwestern Christian Advocate, just to hand, and bearing directly on the question so clearly stated by "B." Let him go on in his good work.

JUSTICE, JR.

REFORM OF CONVICTS. Northwestern Christian Advocate: The last week discussed some of the most important questions of the age relating to the reform of the treatment of criminals. Our jails and panitentiaries have been managed bitherto on the old Mesaic doc rine of retaliation-an eye for an eye and a tooth for a tooth. No idea of the reform of the convict has been entertained until within a few years. The murderer must be put out of the way as completely as nis victim. The man who cannot pay his debts must be confined until he cau, as in the cress of Mr. Dorrit in romance and innumerable examples in this country down to recent times. Of course a man in jail with nothing to pay can only eat-isfy his creditors by suffering pain and humiliation. The whole scheme of which such methods are a part belongs to the lex talionis, and is not in har-mony with Christianity. The new methods which are advocated look to reforming the prisoner and fitting him by a series of years of careful discipline for becoming a good citizen again. Hope and aspiration are to be raised in his heart, and his term of imprisonment is to be determined by bimself; a system of marks adopted recording his behavior, and good behavior shortens h s sentence. Such a system is at present in practice in Elmira, N. Y., and is being studied with great care by philanthropists and re-formers. The old system necessarily regards a discharged convict as a criminal still. He finds that everybody is against him. He has the mark of Usin, and in many cases a roor fel-low finds it best, as he thinks, at least, to repeat his offense and find refuge in the walls of the peniten-tiary sgain. The new method seeks to confine the prisoner, and subject him to a discipline which shall reform him, and then dismiss him with a certificate of good character based 'upon his behavior while in the care and charge of the State. The old method either mages criminals or confirms them. It is more than idle to turn out a convict, hardened and calloused by confinement, without a helpfut moral t aining, and expect him to anything else than a criminal. Our great cities are rife with discharged criminals who are busy plying their vocation. It is time we had a reform

in the direction indicated. JUST RECEIVED

Serve an Injunction on Disease By invigorating a feeble constitution, renovating a debilitated physique, and enriching a tain and innutritious circulation with Hostetter's Stomach Bitters, the finest, the most highly sanctioned, and the most popular tonic and preventive in existence. It strengthens the stomach, remedies torpor of the liver and bowels, and gives a healthful impulse to the secretive and discharging functions of the kidneys and badder. Not only does it arrest and prevent the recurrence of malarial fevers, but it furnishes the cally adequate safeguard against them to persons who have never been afflicted with those maisdies, but would be liable to incurthem if medicinally unprotected. It eliminates om the blood certain impurities which the most skillful pathologists assign as the exciting cause of those agentsing complaints, rheumatism and gout, and it is, moreover, an excellent remedy for an enfeebled or overwrought state of the nerves, and for mental despondency. By invigorating a feeble constitution, reno-

A Valuable Remedy. Brandreth's Pills have been used by millions of human beings. Their success is founded upon the theory of reason, and an attentive observation of symptoms of disease. Whatever makes bad digestion breeds disease, and whatever makes good digestion cures disease. Brandreth's Pills make good digestion, purify the blood and remove all bad humors out of the body by the organs of the stomach and bowels. They act in harmony with vital action and work of nutrition; the strength increases, the skin and the eye become clear, and the symptoms of the malady are surely rendered milder by their use. They are harmless for all ages and condi-

THE wasting diseases of infants and children are by no means confined to an insufficient supply of food. The trouble is that the food is injudiciously selected, and the limited digestive power of the child is unable to assimilate it. Mellin's food, when pre-pared according to the directions, forms the best substitute for mother's milk that has ever been projuced. ELY'S CREAM BALM was recommend-

ed to me by my draggist as a preventa-tive to hay fever. Have been using it as directed since the 9th of August and have found it a specific for that much dreaded and loathsome disease. For ten years or more I have been a great sufferer each year, from August 9th till frost, and have tried many alleged remedies for its cure, but Ely's Cream Balm is the only preventative I have ever found. Hay fever sufferers ought to know of its efficacy.

Advice to Mothers. Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little chernb awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhos, whether arising from teething or other causes. Twentyfive cents a bottle.
